Passage 2

When Tina Nicolai began working as a recruiter for Walt Disney World in the late 1990s, she noticed that many job seekers were submitting flawed resumes. “I realized people simply did not know how to make themselves on their achievements. Nicolai tells Business Insider. “And that’s how I knew there was a market to educate job candidates as levels and in all industries.

In 2010 she founded Resume Writers’ Ink. Since launching my company, I’ve read over 40000 resumes,” she says “And this is what most people get wrong: They think a buffet resume is the best way to go.” Nicolai says a buffet resume is one that has too much going on... one that offers too much information.

“My clients often think a resume that is smorgasbord is best because it demonstrates the bandwidth of skills, experiences and achievements that they have in their repertoire of success,” she says. “But this is a recipe for getting overlooked.”

Nicolai says hiring managers do not have time to sift through your resume, picking out what is directly related to the job opening. “A resume is like a wardrobe. Just because a person has everything from casual to formal doesn’t mean they wear all of those pieces together,” she explains. We dress according to where we’re going, the activity we’re doing, and the climate---but don’t wear it all at once.

Only include information that’s relevant to the job you’re applying for. And yes, that means you need to tailor your resume for each job application. Don’t be lazy!

Passage 3

These days Rebekah Brooks is keeping a low profile. Two years on from her acquittal of an event relating to the phone hacking scandal --- and 10 months after she returned to head News Corp's British newspaper ---Rupert Murdoch's protégé is avoiding the sort of political and social events where she would have once been a regular citizen.

"She has had her head down since she's been hack," says a News Corp source." Her priority is to make a difference to the business. Once you've been through the cycle of fame, normality can be appealing."

Last week Ms. Brooks made the biggest splash since she returned last September, with News Corp's £220m acquisition of Wireless Group, the owner of Talksport radio.

The deal followed the group's £114m purchase of Unruly, a digital advertising start-up, which came last autumn, 10 days after Ms. Brooks return.

While small sums for a global media business with a market capitalization of more than £6bn, the two acquisitions show how Ms. Brooks is looking to unearth new revenue streams to offset the decline in revenues from newspaper advertising.

In common with all newspaper groups, News Corp is facing a structural shift as readers and advertisers abandon newspaper for online platforms such as Google and Facebook. This year analysts are predicting a 20 percent fall in print advertising revenues, and newspaper industry executives are concerned these revenues will never come back.

In the four years between Ms. Brooks' 2011 resignation and her return in the 2015, News Corp's revenues in the UK and Ireland fell from £1.3bn to £1.1bn. Other newspaper groups have witnessed similar falls, as income from digital growth has failed to plug the gap left by the decline of traditional print.

59. According to the article, which of the following is True? ()

A. Normality has become Ms. Brooks' priority most since she's been back.

B. News Corp is faced with a structural change because more readers turn to online platform.

C. News Corp's £114m purchase of Unruly is the biggest splash Ms. Brooks' has made.

D. News Corp revenues in the UK and Ireland declined about 18 percent from 2011 to 2015.

Passage 4

What's New in Vancouver this week?

Vancouver's Samburg Museum will feature a special exhibit of oil paintings by internationally acclaimed Swedish painter Oskar Hakala. Hakala, whose early work featured large-scale, scenic renderings of Swedish beaches, completed work last year on a collection entitled "Mind's Eye" that features uncharacteristic small canvases. Nature is still a theme, but words in "Mind's Eye" take on that subject on a much smaller scale. The curve of a single stone,

the algae collected in a battered piece of driftwood, or the ripples on a section of sand after a wave. Hakala says that his departure from larger works is a natural progression “: My recent work is not just about being an observer of nature. Instead, I want to show how we are all a small part of it”.

The exhibit runs from August 12-22 in the Samburg Museum’s North Gallery, 432 Caroline Avenue, Vancouver. Tickets are \$10.00. Complimentary tickets are available to museum members.

Call the museum at 604-555-0112 for more details.

Hakala’s Latest Efforts Uninspired

The Oskar Hakala is a masterful painter is undeniable. I have spent many enjoyable hours studying his early work. Those paintings have a life of their own, and evolve into something new each time I see them. But with “Mind’s Eye”. Hakala misses the mark. His characteristic wide, sure strokes of the brush are missing. The new works have a much lighter touch, giving the impression that he is not sure of himself as he ventures into new territory. More troubling is that this collection of work shows almost no difference in terms of theme from Anna Vestrom’s paintings. Vestrom depicts the small elements in nature, but in a much truer fashion than Hakala does in his recent work. As a great fan of Hakala, I can only hope to see something bolder.

61. What is indicated about Oskar Hakala’s recent work? ()

- A. It’s quite different from his other paintings.
- B. It incorporates several types of paint.

- A. They can be purchased online.
- B. They are less expensive when purchased in advance.
- C. They go on sale August 15.

63. What is the purpose of the second article? ()

- A. To note that a popular exhibit is closing.
- B. To analyze the use of light in modern art.
- C. To give an opinion about the work of an artist.
- D. To encourage the readers to attend a workshop given by an artist.

64. What is implied about Soren Lindgren? ()
